Improsys's

Lean Manufacturing

Profitability *focus*

ADDRESSING THE NEEDS OF INDIVIDUAL EMPLOYEES TO UPGRADE PROBLEM SOLVING AND DECISION MAKING SKILLS.

Improsys.in is solution provider for integrated business, technology and process problems on a global delivery platform.

Improsys is a business improvement solutions organization with focus in the area of systems design, systems development & systems implementation.

Improsys helps organizations to design systems, which connect to the company's vision, goals and objectives.

At Improsys, the emphasis is on putting systems in practice rather than submitting consulting reports.

Lean Manufacturing

PROGRAM OVERVIEW

improvement in systems

- Lean Manufacturing – A way to eliminate waste and improve efficiency in a manufacturing environment
Lean focuses on flow, the value stream and eliminating muda, the Japanese word for waste. Lean manufacturing is the production of goods using less of everything compared to traditional mass production: less waste, human effort, manufacturing space, investment in tools, inventory, and engineering time to develop a new product

METHODOLOGY

Our approach to train on Lean is based on an Action Learning Model. This model combines online instruction with real-time project implementation and training. The course-training syllabus of Lean is designed to achieve real time Improvements, Cost reduction, Quality improvements in Processes.
